

Dear Parents,

One of the reasons you may have chosen a charter school for your child's education is the opportunity to be more involved as a parent. The purpose of the New Mexico Charter School Act of 1999 is, in part, "to encourage parental and community involvement in the public school system." Aldo Leopold High School encourages parent participation in the school, and a small school like this one relies on the support of parent and community volunteers for its success. Please consider some of the ideas below, then complete, sign and return this form.
